MEOW PAPER

ABSTRACT

The popularity of memes as a form of art and social medium has grown dramatically in the recent years. Memes allow great creativity and due to their huge usability draw global interest and millions of views.

AngryKitty is a decentralized meme coin that is intended to contribute in social and art movement and bring joy to its community. The token is called ANGRYK and is distributed equally between Ethereum (ERC-20) and Binance (BSC20) Smart Chain Networks.

MEME

BACKGROUND

LOL

The term meme was coined by Richard Dawkins originating from his 1976 book 'The Selfish Gene'. By definition, meme is an idea, behavior or style that spreads from person to person and carries symbolic meaning representing a particular idea or theme.

Meme term became more popular with the Internet era in 2009-2010. In 2020 DEFI and Non-Fungible Token (NFT) were born and boosted the progressive movement into technology and creativity. In the NFT world both, the technology and creativity, go hand-in-hand as they lead to inspired minds and financial wealth.

AngryKitty (ANGRYK) aims to be the most amusing meme token out there and bring its community into the NFT world for fun and profits. AngryKitty (ANGRYK) is created to bring joy, increase creativity and take advantage of the NFT world and Gaming. The team behind the project works in close partnerships with established world leaders in the gaming industry and plan to develop a variety of games based on the AngryKitty main character in NFT, Metaverse and other spaces.

WHAT IS ANGRYKITTY

+ WHO IS ANGRYKITTY

AngryKitty is our fun character who got very pissed off by all the dogs around. It's time for a cat to show up and teach everybody a lesson – who is the real kickass boss in the playground. AngryKitty's mission is to confront and destroy all the dogs one by one taking over their market kingdoms.

ANGRYK is a token that allows the community to unleash their inspiration and take part in the NFT world and Gaming. Community members can join in shaping the future of AngryKitty on the battlefield by participating in meme community contests.

AngryKitty has a fixed supply of 1 quadrillion and two ANGRYK tokens. 1 quadrillion is divided equally between Ethereum and Binance Smart Chain networks. 50% of the total supply is locked for safekeeping. Starting from 2025 the locked supply will be gradually used to support global charity campaigns. To ensure long-term success and stability only a small part of the locked ANGRYK tokens will be incrementally vested per year and utilized for charity. That's how AngryKitty will establish a healthy balance between its ecosystem security and the ability to empower the largest crypto donation to support charity worldwide.
